Profile Summary

Dedicated HND student specializing in software engineering, with hands-on experience in full stack development and AI analysis. Proficient in Angular and Spring Boot, with a strong foundation in creating scalable, efficient applications. Known for problem-solving abilities, attention to detail, and a collaborative approach to delivering impactful solutions. Passionate about leveraging technical skills to drive innovation and optimize processes.

Skills

- Java
- C++
- HTML, CSS
- JavaScript, TypeScript
- MySQL
- Angular
- Spring Boot
- REST APIs
- Object-Oriented Programming (OOP)
- MySQL, PostgreSQL
- Git, Postman

Work Experience

Trainee Software Engineer

Jun 2024 - Present

Institute of Digital Engineering Technology, Sri Lanka

- Developed and maintained web applications using Java, Spring Boot, and Angular, resulting in enhanced user experience and improved functionality across various platforms.

- Collaborated with cross-functional teams, including UX/UI designers and product managers, to design and implement RESTful APIs that improved data retrieval and integration processes, leading to a 20% increase in application performance.
 - Assisted in the architectural design of microservices, ensuring scalability and modularity of applications, which streamlined deployment and maintenance processes.
 - Participated in code reviews and contributed to maintaining code quality and best practices, fostering a culture of continuous improvement and knowledge sharing within the team.
 - Developed front-end features using Angular, implementing responsive design principles to ensure optimal performance on both desktop and mobile devices.
 - Wrote unit tests and performed debugging to identify and resolve software defects, significantly enhancing application reliability and user satisfaction.
 - Engaged in Agile methodologies, participating in daily stand-ups, sprint planning, and retrospective meetings, which improved project transparency and team collaboration.
 - Contributed to documentation efforts, creating user manuals, technical specifications, and API documentation to facilitate onboarding and streamline development processes for future team members.
 - Conducted research on emerging technologies and industry trends to recommend improvements and innovations in the software development lifecycle.
 - Collaborated with senior developers to troubleshoot complex issues and optimize application performance, resulting in faster load times and reduced downtime.
-

Work Experience

Pearson BTEC HND in Computing (Software Engineering) Jul 2024 - Apr 2026
Londontec City Campus, Nugegoda

Pearson Level 3 Diploma in Information Technology Feb 2023 - Jan 2024
Esoft Metro Collage, Kalutara
